Gem Elixirs And Vibrational Healing Volume II (Gem Elixirs & Vibrational Healing)

Synopsis

This book is distinguished from other current texts on gem therapy because of its careful presentation of new and original research material. Most of the information presented in this book was obtained by Gurudas through working with two channels. The channeled material is carefully explained and supported with numerous footnotes and commentaries. In this encyclopedic text, Gurudas introduces you to such topics as: Quartz crystal technologies, music with natural quartz crystals, astrology and gem elixirs, how vibrational remedies work, Earth as a living being, talismans and amulets, new physics and gems, new data on the 7 rays, bath therapies and gems, future prospects, and the use of gemstones in Atlantis and Lemuria. The use of gem elixirs to aid spiritual and psychic growth. New data on the miasms and the real causes of all diseases. Comparison of gems to homeopathy, flower essences, and herbs. Use of gem elixirs in birthing, agriculture, color, and with animals. Five unisolated elements that will soon appear in new minerals to play a key role in manifesting the New Age consciousness. Ancient technology to project into and change the future using astrology and gemstones in a mandala pattern. Nostradamus used this system. The return of the Teacher of Righteousness and the possibility that he will soon step forward to expand the Christ consciousness. --This text refers to an alternate Paperback edition.

It complements the Vol 1, and is a must for anyone involved with energy medicine and crystal healing. As an Holistic Therapist I thank God for having both books at hand. It really empowers

anyone interested in the subject and is the most serious esoteric work on the matter. After reading it I realized that some other sources around are deeply related and indebted to Gurudas (John) work and revelations.

Awesome information, the book is packed with great knowledge ! Recommend by another healer and well worth the high price I paid. GREAT SELLER as well. AAAA ++++++

Where Volume One was an amazing, broad-spectrum time-travel into other cultures, many of them ancient, to explore previous uses of gems for healing on every level, Volume two gives us very practical everyday uses: using elixirs and flower essences in our bath water, etc. You'll bury yourself in this book and only come up for air and if you have to go to work!

Fabulous interpretation of the use of natural gem elixirs for well being use. Complete in the fact that more than physical cures are covered here.

I would like to reorder this one along with the other volumes.

Excellent!

Very rare book!

Better than I remembered. Informative at the least and enlightening at the best. Currently my favorite crystal book, hands down.
