Janice Poon is a world-renowned food stylist and writer. Her eclectic career in design spans magazines, wedding dresses, jewellery, sculpture and fragrances. She is an award-winning graphic novel author and currently the food stylist on the critically acclaimed NBC show, Hannibal, which spawned her popular behind-the-scenes blog, "Feeding Hannibal". Janice lives and works in Toronto, Canada.

An exquisite book full of delicate, high end, and delicious treats. This is not macaroni and cheese dressed up for a show, this is sea urchin and shattered tea cups for those who delight with bloody and insatiable jokes and palates. While quite a few of the recipes are rather high end, and require sometimes difficult and expensive ingredients, it is simply to be expected (who amongst us can casually get and cook a suckling pig, after all?). But, on the other hand, quite a few of the recipes, most of them I would say if you have a good butcher in the area, while extravagant and most likely not fit for a quick meal after work, are easy to whip together for a lovely weekend dinner party. There are even a few vegetarian recipes for those of us who know people who prefer a lighter affair. The book is not just all recipes. No, no it is not. There are wonderful illustrations, and quite a bit of information on how to present the delights to perfection as well. Shattered teacups and pinwheel cookie people and all. If you loved the show, this book is for you. It is, truly, feeding Hannibal.

I really hate cooking. I would rather do dishes, do yard work, clean the bathroom...pretty much anything instead of cooking. With that said, being the Fannibal that I am, I had to order this book, and I am so glad I did. While it is unlikely I will make many of the dishes in this book, simply because I hate making food (I would practically live off cereal if it were up to me; Hannibal would be so disappointed), there is much more to this book than just recipes. The pictures in the book are gorgeous and vibrant, which is one of the first things you notice. There are also amusing anecdotes and interesting information sprinkled throughout the book. And, of course, what would be a book about the show Hannibal, without cannibal puns? With all of that said, for those that actually enjoy cooking, the recipes are explained in great detail and are easy to follow. There are tips and tricks, for those that are new in the kitchen, at the front of the book. Additionally, there are some vegetarian

options for some of the recipes as well. The recipes range from seemingly easy (I might actually try the sanguinaccio dolce aka blood chocolate) to some that are more challenging, for the more experienced canni...er...chef. One of the small details that I like about the book is that it tells you which episode the recipes were featured in. One last note about the book...as the disclaimer on the back states, it "is intended for Fannibals and foodies, not cannibals. Please don't eat your friends!"

Being a fan of the show, I pre-ordered this book as soon as it became available. I am so glad I did. The book is nicely laid out, with plenty of pictures, anecdotes from the show and a ton of gourmet recipes. And Janice included a vegetarian section to boot!

I only wish every single dish was pictured, or at least more of them were. I didn't purchase this book to actually attempt any of the recipes, but after reading Janice Poon (or the ghostwriter's) exciting prose, I may try one--one day. But as it is, only a relative few of the recipes are actually shown with a photograph. Those that are, however, are amazing and all that one could hope for in a book like this. Here's to the awesome work of Janice Poon, and (maybe) another season of Hannibal!

I hesitated to buy this when it came out because I've bought media artbooks, etc. before and gotten a shoddy product. I was delighted to find out that this cookbook is beautifully put together. Most of the recipes are too fanciful to make for everyday life, but Janice Poon's notes are fascinating to read. Even a fan who doesn't like to cook will find it an interesting read. The few recipes I have tried held up in both taste and aesthetics. The book itself is a really nice hardcover with beautiful pictures and illustrations. As someone who owns a lot of both cookbooks and coffee table books, Feeding Hannibal instantly became one of my favorites.

got it as a gift for my boyfriend and he loved it! it has some funny lines in it too, and references to you what episode the recipes came from.

Although I haven't tried any of the beautiful recipes in this book, it is thorough with great illustrations and pictures. If you are a fan of this television series you will love this cookbook.

Amazing, the food is all menacingly beautiful, and the passages before each recipe from the author are insightful and humorous. Janice Poon also makes a lot of these very high class dishes very accessible and offers alternatives for the original ingredients. With vegetarian options too, despite

the show's promise. Ultimately, definitely worth getting if you enjoyed the show!
