Cover photo: This image of the city of Kalimpong, in the Indian state of Darjeeling, shows the density and eclectic building styles characteristic of many cities in the developing world. A contemporary tourist economy benefits from the long-established mixing of many cultures, a rich regional biodiversity, and a strategic site that links India, Nepal, Tibet, China, Bhutan, and Bangladesh. Back photo: With over a billion people in India, cities such as Delhi teem with activity. Rapid growth in the twentieth century and attempts to retrofit old cities with new technologies and new forms of transportation often create a chaotic appearance that can leave visitors overwhelmed by the visual stimuli and density of people.

Arrived as described

Great resource book for an AP Human Geography class. Chapter 'lessons' and activities that bring information alive for students is excellent.

I got this book in great shape, till I started the class and realized whole chapters had been ripped out that I instantly needed. Then downloaded the E book for it not to work at all.

The book was what I needed and was way cheaper than through my schools bookstore.

Fast delivery and just as described.

Missing a lot of pages that i needed to use for class work/ homework.

After I took the wrapping off, the pages began to fall out. I understand that you can rip the pages out

but I thought it would be ripped like a notebook.

the book was in the condition as stated
