## **Customer Reviews**

There are 25 various animal designs in this great coloring book. They are of the outline of an animal with a doodles added to making coloring them a fun experiment in colors. The designs include at least one: wolf, dog, cat, tiger, lion, bear, owl, elephant and more. Some of the designs are head shots while others are full body images. I like that there is a variety in poses as well as animals as it gives me more to choose from when I pick up the book to color. Doodle animals are a favorite of mine because I get to imagine animals in wild and fun colors. The designs are printed on thin white non-perforated paper which is typical of CreateSpace publications. The paper is medium weight and the binding of this book is glued rather than sewn or stapled. There is plenty of room to cut the page out if you wish. All designs stop well before the margin. Coloring pencils work well on this paper but all markers and gel pens bleed through. Not a problem I am now using a

piece of chipboard under my work to keep ink from leaking through to ruin the design below. You can use heavyweight paper or card stock but be sure to check to see how many layers you need to keep it from leaking through. The reason I like chipboard is it can be reused over and over again and is available at office supply stores or on-line. These are the coloring medium that I use for testing. If there is something else you feel I should be testing, please let me know and I will see if I can add it to my growing pile: Markers: 1) alcohol-based Copic Sketch, Prismacolor double ended markers (brush and fine point), Sharpies (fine and ultra-fine) and 2) water-based Tombow's dual end markers (brush and fine point), Stabilo 88, Staedler triplus fineliners, and Pentel markers. Gel Pens: Sakura, Fiskars, Uni-ball Signo 0.38/0.28 and Tekwriter. Coloring Pencils: Prismacolor Premier Soft Core, Derwent Colorsoft, Prismacolor Verithins, and Faber-Castel Polychromos. I received a free sample of this coloring book for test and review purposes.

The cover picture is included in this book and the doodle adornments are representative of all the images in this book, however you will find 8 portrait type images that are just the heads of animals like the cover picture, and 16 full body illustrations. This is a wonderful coloring book for animal lovers of all ages including Adults, College students and School aged children. Perfect for a family gift that will provide hours of quality family time or cut off the binding and use these images for a class or coloring group.

1. 24 Illustrations printed one per page (The back of each page is blank) on medium weight, bright white paper.
2. All Markers I tested bleed through the pages; I just place a sheet of paper under the page I am coloring if I use markers, to prevent damage to the next page.
3. Colored pencils will indent the next page unless protected; I place a clipboard under the page I am coloring when I use colored pencils.
4. All images are centered on each page and leave at least 1/4" between the image and the binding, this means coloring the entire image is easy and removing individual pages from the book using a box cutter is also easy. I use a box cutter, place a heavy cardboard under the page, place a ruler on top of the page for a straight cut and slide the box cutter along the ruler for a straight line, this only takes a second.
5. With the 1/4" space between each picture and the binding this is also a wonderful book to take to an office supply store and have the binding cut off. This is a great way for teachers, or coloring groups to share this book, also great for children's birthday parties.

You will find 8 portrait type images of just the heads of your favorite animals that fill each page, plus 16 full body illustrations all adorned in doodles.

This is a nice coloring book. I like these type that have the outlines of the animals but with intricate designs within that outline to Color. Right now this is my favorite coloring book I own. I have two complaints which takes it from a five star to 4 star rating in my opinion. The First is I wish it had perforated pages. My daughter likes to hang the colored pictures on her wall and it's hard to rip the page out without tearing the paper you are trying to preserve. The second problem I have is the pages could be heavier. My markers bleed thru badly, so I have to slip a piece of cardboard in the book so not to damage other pages. In conclusion, I really like this coloring book, but it just not quite perfect. :) This product was a personal purchase for myself at the normal retail price. I am reviewing it because I want to share my experience with other potential customers.

This is an okay book for those not really seeking a challenge and/or wanting to focus on their coloring. I really love doing mosaic type books and thought this would be fun but it looks like someone printed out a design from an old laser jet printer, the lines aren't clear (looks a little pixelated) and the paper is computer paper. I gave this to my niece to practice coloring inside the lines. She loved it, I did not. So all in all, this is great for 6 year old kids - but I would recommend to just google animal mosaic coloring images, save the images you like and print it that way, it'll save you the money.

This is a simple and pleasant enough coloring book. It's also my first adult coloring book and I'm not much of a fan for coloring animals but still that's more of a personal problem. I also think things would've been easier if all the drawings were vertical rather than horizontal.
