Customer Reviews

We always love the Ready-To-Read books. Our kids love reading, and these are especially great for teaching. Our twins are especially enamored with PJ Masks, so what better story for them to read!

Son loves it!

I received all package on time. My grandson loves it.. very educational.

Grandsons loved me reading this to them.

Easy to read and fun!

This was fairly enjoyable, but the easy-to-read made it almost dumbed down for children, rather than just good reading for the age group.

I got this for my early reader because it says "level one". Apparently that's not the first level. These books start at "pre-level one" (because that's not confusing). The story is ok. It follows one of the episodes. I just wish I'd have known it's really a second level reader. My 3 year old isn't quite ready to read the word "excited" or "laughs" without help.

This was a nice little reader for my kindergartner (he reads above his grade level at home). The quality of the book is good. The story line is taken from one of the PJ Masks episodes, so if your kids have watched the series it won't be completely new. But that probably makes it more familiar, more exciting, and easier for beginning readers to get hooked. We got this as a stocking stuffer, I'm sure it will be well-loved.
