Activity And Game Book: Basic Skills For 5-6 Years Olds (Learn And Have Fun)

Synopsis

This volume explores the full spectrum of early writing skills in a lively workbook format. Simple instructions to follow and a great satisfaction for the children as they accomplish their tasks: draw what is missing from a picture, circle the different objects, draw the missing wheels on buses, draw the tiles on the roofs, draw long or short hair on heads, help a monkey find a banana, and much more.

Age Range: 4 and up

Grade Level: Preschool and up

Customer Reviews

Teora is a children's books publisher.

We recently had our 7-year old niece stay with us for a week, and she loved working through this book. It has a very nice set of excercises and tasks - drawing, logic, counting. Very nicely produced, with amusing excercises. Printed on good paper, nice colors, pleasant to draw on. Unlike TV, this leads one to interact with a child in a very positive and pleasant way. I highly recommend this book! The only thing - you cannot just shove it at a kid, this is not like parking them in front of a TV - you actually have to engage with them and look at many excercises together. Highly recommended!

Includes activity language skills for children ages 5 to 6. There are: what's missing between 2 pictures, counting the spots, match objects with a connecting line, matching pictures, opposites, drawing missing elements, mazes, and differences/likenesses. Can you find the monkey's banana? Which mask matches which costume? Match the number of spots on the duck with the number in the left-hand column. Help Jack find his dog. Clever activities and games to help 5 to 6 year olds build language skills in a fun and enjoyable way.

This book has lots of fun and educational activities for children. Some are math puzzles, counting, and basic addition, others include drawing, observation puzzles, mazes, and lots more. With lots of well-done colorful illustrations that keep the book interesting without making it overly cluttered Learn and Have Fun Activity & Game Book is recommended for home school or to supplement a traditional school program.

This product was a great pick to place under the Christmas tree for a young man who I have known only in photos. With books you can not go wrong. Thank You

I placed an order today and it was the most difficult experience I have ever had placing an order with you. The method of payment page would not accept my credit card or bank account although repeated attempts were made. It would also not accept the last 5 numbers of my credit card. I then decided to call and found it very difficult to find your phone number. On my first call Kernal (or Karnel) hung up on me when I expressed my displeasure with the difficulty of ordering and talking to a person. I called back and spoke to Utpesana who was difficult to understand. I insisted on speaking to a supervisor. She put me on hold and after about 5 minutes I gave up. I logged out of your web page and logged back in and was able to complete my purchase. I will look for another vendor for my books. Guy C. Guckenberger
