Customer Reviews

Full of proofreading errors which casts a shadow over the overall quality. A "2nd edition" should be practically free of errors. I would recommend that an English teacher be hired to proofread the drafts before a third edition comes out. Too many mistakes for me. Seems like the author would be great to do business with if he practices what he preaches. If you have any experience at all with online buying and selling don't expect too much from this pamphlet. Overall I was disappointed.
