Customer Reviews

It's the text book of California Southern University MBA course. The contents are comprehensive. I bought a used book in . It was very cheap. A new one is about \$130. I bought the used one at about \$10. I live in Seoul, South Korea. So overseas parcel service fee was about \$30. I paid only \$40 for this. Wow, what a deal! And it took only 4~5 days to deliver it to me from USA to South Korea. How amazing! I felt as if I lived in USA. The book was used, but it's in great shape. Very good!

The book is supposed to be new with the "My ThinkingLab" but I received a used copy and will most likely have to purchase the "My ThinkingLab" separately. Which will cost me more money. This order has cost me nearly \$200. I'm not happy with the whole transaction.

thick book for a class like this but very good, good examples and layout makes it easy to follow.
Thanks!!

Dumb book, very useless and confusing. Maybe bc I'm a science major but could easily have worded and made it more clear. Talks around things too much

Excellent

Theory is a challenge for me but this text helped make the concept easier to understand. Great quality for the price of the book.

This is a required text for an undergraduate level business ethics class. I was pleased with the condition of the book. It had not been written in or high-lighted. I will probably use it for reference in the future. It's content is very comprehensive.

Perfect for class. Someone scribbled through out some of the pages.
