Customer Reviews

poorly written, tons of mistakes, totally useless as a travel guide. It looks like someone threw it together from various travel website sources. Don't buy it.

I read this in 30 minutes. Guess I should've paid more attention to the "jet set" part of the title. Was looking for more cerebral info. This book is for folks who want to salsa 'til last call, see and be seen. Good thing it was inexpensive. Lots of typos and indications it was hurriedly done.
