The Real Book Of Real Estate: Real Experts. Real Stories. Real Life.

Synopsis

In a world where too many financial advisors do not follow their own advice, here is a book written by experts who practice what they teach and who will teach you to thrive, not merely survive, during turbulent economic times. This is the real deal...The Real Book of Real Estate. The only thing better than one real estate expert teaching you how to invest and win is 20 real estate experts with that same mission. For the first time ever, Robert Kiyosaki, bestselling author of Rich Dad Poor Dad, has assembled in one book an unrivaled cast of real estate wizards and trusted advisors with one purpose in mind: to share their knowledge and teach you to win in real estate. This is the ultimate real estate book you will come back to again and again. Listen to it cover to cover, or use it as a guide to help when you need it most. The Real Book of Real Estate will be your number one source as you determine the real estate niche that is perfect for you and as you navigate the ups and downs of the real estate market and become the expert you know you can be. Whether you're a seasoned investor or buying your first property, this is the one book you can and will listen to it over and over. Robert's team of real experts shows you how to: value a property, lease a property and keep it leased, get financing, title and protect entities, find hidden investment opportunities, minimize taxes, and establish your own team of advisors.

Customer Reviews

This book is big and detailed and covers specific real estate topics in each chapter that are written by experts in their field. The chapter on LLC's was very helpful and we're implementing the recommendations.

What an excellent book, providing all the basics that are needed to get started. I would have saved SO much money and headaches had I studied and used Rich Dads advice from the beginning! Lessons are expensive! Read and follow the advice on every deal!

The Absolute Best Real Estate Book, because its really 27 Books. 27 different authors wrote 27 chapters of 'how to'. I had a hard time absorbing so much information that I had to read it slowly. 27 rich people shared how they did it, and I think I can learn something from one of them at least... :-)

Definitely would suggest reading a beginners guide before this. It reads almost like a text book. Come in with some knowledge of real estate first.

Good book for including everything about the investment of the real estate

brilliant

This is honestly the best real estate book out there. It explains EVERYTHING I needed to know, in great detail.

Chose this rating because i was happy with it and I like it because it teaches to be a good Real Estate Investor. I will recommend this to my friends.
