Weasel is ready for his dinner. And poor mouse is it. Just in time, he thinks up a clever and entertaining way to distract weasel from serving up mouse soup for supper.

I can't count how many times my almost two year old has had me read this book. She loves it. We regularly *make* mouse soup, wherein we tell stories about our day or sometimes go for a walk and collect rocks and leaves for the soup. This book inspires lots of creative thought in little ones and it entertains for ages. Would also recommend the Audible narration of this, Frog and Toad, and Mouse Tales.

Mouse Soup was selected to work on language comprehension with some of the children that I work with in the schools. These children have a diagnosis of either dyslexia, language disorder or auditory processing disorder. I have taken this book to work on all areas of language with my students. It has been very successful and I am grateful to the author who has written in such a way that has enhanced my students language skills. Thank you so much! Yvonne

This was one of my favorite books as a child, and now I will be sharing it with my newborn :D My husband had never read this series when he was little, and he absolutely loves it!

My 3 year old loves this book. It is cute and engaging. Good reading material for little ones learning their sight words.

Loved this book as a kid and love sharing it with mine.

Love the author.

This is one of the greatest children's books of all time! I got the audio with it and gave it to my son, for use with his little children. Still have a tape of my son at age 4 reading the book on tape to his grandparents and "beeping" when it was time to turn the page!!! LOVE Arnold Lobel and his stories!!!!

My son is in 2nd grade and struggles with reading. This book and Mouse Tales are his favorite books to read. They are easy enough for him to get through with little help from us (large font and relatively simple words) but are still engaging stories. We talk about what he has read afterwards, and there are lots of details for him to recall. He also loves the preposterous nature of some of the stories, which he finds hilarious. Most books at this reading level are pretty boring, but these books are wonderful, and make my son actually want to read, which is the greatest sign of success.
