Immune (A Rylee Adamson Novel, Book 2)

Synopsis

"Finally, a heroine who doesn't annoy me! Rylee is the perfect combination of loyal, intelligent, compassionate and kick-ass. Many times, the heroines in urban fantasy novels tend to be so tough or snarky that they come off as unlikable. Rylee is a smart-ass for sure, but she isn't insulting. Well, I guess she gets a little sassy with the bad guys, but then it's just hilarious." -Diary of a Bibliophile

From HiJinks Ink Publishing and Shannon Mayer comes IMMUNE (BOOK 2) in The USA Today Bestselling RYLEE ADAMSON NOVELS. With over 1.5 million books sold, Shannon Mayer proves once again she can dominate her genre right out of the gate.

“My name is Rylee, and I am a Tracker.” When children go missing, and the Humans have no leads, I’m the one they call. I am their last hope in bringing home the lost ones. I salvage what they cannot. Underestimating demons is a bad idea, and it’s a mistake that may cost me not only my own life, but the life of a missing child. If I can swallow my pride, and allow Agent O’Shea to help me find a way to deal with the demon, we might be able to save the child. With this salvage, it’s a race against time, a test of trust, and a temptation that I’m doing my damnedest to ignore. If only swallowing my pride was that easy.

Customer Reviews

I often download recommended reads from independent authors and many times find a diamond in the rough. This series is definitely one great find. I gave *Priceless*, the first book in this series a try and then went to see if there was a sequel without coming up for air. *Immune*, the sequel, was just as entertaining, fast paced, funny and sexy. Although it is rather short for a book coming in at under 200 pages, the author has all of the essentials and there isn't a wasted moment. The only thing I wanted when I was done was a third installment. The heroine, Rylee, is a lot like Kate Daniels for you urban fantasy fans and although no one comes close to Kate, Rylee is a kick butt character to read. Rylee Adamson is immune to most magical attacks and she's a Tracker. She can find anyone anywhere, with the exception to the most important missing person, her sister, who was mysteriously taken over 10 years ago. Since that event, she's used her abilities to fight supernatural bad guys and help find missing children. She brings them home whether they're dead or alive, and for the most part, it's not usually a happy ending. FBI agent, Liam O'Shea always thought Rylee was responsible for her missing sister and dogged her for over 10 years, but after the events of the first book, he realizes what an amazing and dedicated woman she is dealing with a whole world of supernaturals he never knew existed. He's joined a special arcane division of the FBI and wants Rylee to be his partner, but Rylee has a whole set of insecurities to deal with and a nasty venom that's killing her. As the two work together with some great sidekicks, Rylee and Liam grow closer together to help out some friends, cure Riley, and find a missing child before it's too late. This book has lots of action, violence, sexuality and a great cast of interesting characters that include harpies, trolls, demons, vampires, daywalkers, ogres, witches, werewolves and psychics so far. Each individual mystery is part of a greater series plotline that sucks you in and doesn't seem to let go. I am definitely looking forward to future installments and recommend it.

IMMUNE was, well, a bit of a mess. After a respectable series debut, Shannon Mayer trades in her Urban Fantasy hat for a Paranormal Romance one which resulted in a pretty drastic u-turn that I didn't particularly care for. Rylee/OAfAcfA "SheaAfAcfA "hi, how are yaAfAcfA " and AfAcfA "I love youAfAcfA " and you donAfAcfA " get much more instant

than that. But, then Liam isn't in book 3 AT ALL if the blurb is to be believed, not to mention that the author is also going in questionable directions with a few of her characters. I just don't know. Adamson's snarky tough girl attitude has started to surface which was exactly what I was hoping for. It's too bad that it didn't carry over to her dialogue with O'Brien; whether I continue this series or not will most likely come down to if Mayer decides to focus primarily on Rylee's angst romance with the FBI Agent, or on her cutthroat Tracker side. I am all for option 2 in case I haven't made that clear yet. Adamson was also very reckless in this novel which put my remark from my PRICELESS review into doubt. I hate Milly, I really do. Every protagonist needs a BFF / sidekick / ally, so I don't get why the author destroyed their friendship in the first installment, and then continued to kick it while it was down in this one. It's going to take A LOT for me to care about the witch. Why make that much work for yourself? Unless she is disposable. I wasn't ecstatic about what happened to O'Brien towards the end of this story either. It was yet another extreme approach to something that should have developed over multiple books, or not at all for that matter. The best parts of this novel were the interactions between O'Brien & Alex; they are fighting for dominance within Rylee's pack. One is human, and doesn't have two clues about the on-going power struggle, and the other is a submissive werewolf who doesn't have an Alpha bone in his body. It made for some entertaining mix-ups! The Kindle edition came with a cool character reference feature that was useful in identifying who is who, and the plot itself was ok too with its triple threat. It's unfortunate that it was overshadowed by main couple drama, and unstable secondaries. IMMUNE was a far cry from book 1. It all comes down to RAISING INNOCENCE. ~3.5 Stars

I waited a long time to try this series, it was constantly recommended to me via . But I haven't met anyone who had read any of her books so I was hesitant. I recently saw that they were on sale so I took a chance and snatched them up. And OH BOY!! I am so glad that I did!! I am a huge fan of urban fantasy and paranormal romance. I have read some that are darker and intensely sexy series (like Karen Marie Moning's Fever series-highly recommend that one) and some gorgeously written, beautifully emotional, epic series that has adventure as well as romance like Elizabeth Hunter's

books. But this series is equally wonderful in its own way. The books aren't huge tomes (yet, I have only read the 2 so far), so they read quickly. But each story gets your adrenaline going with action, and the underlying story between Rylee and Liam. The stories have been very funny, I truly like Rylee's POV. Her inner dialog is exactly what I would be thinking. But something that I haven't seen before is how she creates different types of characters. In this world, if it can be imagined, it can exist as a potential supernatural enemy or ally. But nothing is typical, what you know of werewolves, vampires, trolls and so many more fantasy creatures is completely unique in these books. So I guess I should sum it up to say that If you are looking for something to easily get wrapped up in and you love PNR, then get on it. I need to be goingÃ¢Â¢Â¢ â ¯Ã ¦Book #3 is waitingÃ¢Â¢Â¢ â ¯Ã ¦;))
