Roger Priddy's passion for educating children through fun, informative and engaging books has led him to create some of publishing's most enduring and successful non-fiction early learning books. Roger lives in London and has three children, who have been the inspiration behind many of his best publishing ideas.

my daughters fav book. shes 11 months old but i have read this to her nightly for about 3 months because she likes it so much. everytime we get to the dog, she points, gets excited, and says "da" (trying to say dog). its so cute. ordered one for a baby shower gift and the names of 2 animals changed. the parrot was changed to maccaw. and the chimpanzee to chimp

I love these bright baby book to teach vocabulary. They have great clear illustration with appropriate

words and most importantly one per page. I think this makes it less confusing when they are just learning. When my daughter was 1 she would point at the pictures and I'd tell her the names. Then we'd play where I'd ask her where something is and she'd find the page. Now at 27 months she goes through the whole book naming the pictures and we talk about them. I give her adjectives. So the books have definitely retained her interest. They are nice sturdy board books that have held together very well. Unlike some other board books she tore apart at the spine.

My son loves this very cute and colorful animal book. I thought it was a lift the flap type book when I ordered it, since it looks to be the same style as the others we have, but it is not. Even so, a very good book for kids to learn animals :)

these books are great. i usually buy a bunch and give them away for gifts. cheap and perfect for babies/toddlers

Helping granddaughter with talking.

Perfect for little kids

I got this along with the other 2 bright baby books I saw on here (colors and first words) for my book loving 18 month old. he absolutely LOVES them! we have other books similar, but they all have several items per page and he seems to really love that each page is only one thing. He focuses right on it and says all the words he knows and animal sounds. :)

GET THIS!!! We have so many kids books that have not lasted the test of time. This book is quality. Our kids love the taste of these books...errr I mean, our kids can't actually eat these books because of their quality design. We have a house full of partially eaten and ripped kids books, but this brand is the best. And as a responsible parent, my kids are learning. Which is nice.
