Being Found: A Christian Woman's Guide To Marriage

Synopsis

Once upon a time, in a land far far away, there stood YOU a Christian single woman looking for her knight in shining armor. Have you struggled with finding “the one”? Is there really such thing as a “soulmate”? For years, international marriage expert, Mark Gungor, has been asked by single women, “How do I find a husband?” After hearing this common question and many stories about dating, he decided to definitively answer the question. Society and culture tend to teach us that the Bible is against us choosing a spouse despite the fact that nowhere in the Bible does it say that God tells us specifically who to marry. Quite the contrary, God tells us that it is our choice to get married and whom to select. Take the story of Ruth and Boaz as an example. Ruth sought out Boaz, not the other way around. She practically threw herself at him and begged him to marry her. So many Christians use this and other biblical relationship stories out of context today. Here are some areas that will be covered in the book: Is the desire for a man a blessing or curse? It’s about finding and being found Is character really that important? Can the girl make the first move? Will sex really make me stupid? Tick, tock, tick, tock: is your time running out? Listen to your friends and family If you are you tired of being alone, this is your guide to finding a REAL man, one that is worth the searching. Get this practical guide and start on the Christian way to finding your husband today! Pick up your copy of the book by clicking the BUY NOW button at the top of the page.

Customer Reviews

Very happily by God's grace, and raising a daughter. This is great insight into the misinformation so prevalent today. Best advice in the book...listen, then search the scriptures daily to see if it is true.

The cover is so provocative, and if you have never heard the author speak before, you could assume you're in for a wild ride. If you listen to Mark Gungor's podcasts, a lot of this will be repetition. Good content, but awful cover.

This book is a quick read with down to earth advice for the single woman. I bought it to pre-read it before giving it to my daughter. I think she will enjoy it.

I loved it!!! Easy to read, simple and fun... but with great biblical truths... An eye opener!!! I highly recommend it!!!

Great book and author. did not say that this would not work on windows 8 for Kindle. That should be stated clearly before you take my payment. Very poorly done . This is the 2nd book I have had this happen with.

A quick read. Somewhat depressing, but honestly so. If you listen to Gungor's podcast you've probably heard everything before.

Such a wonderful book! If you know anyone struggling with being intentional about dating and relationships it is PERFECT for them! It's an easy read-very direct and to the point! I read it all in a day and loved every minute of it!

Reading this book with my 16 year old.... not only is it well written with great information, as always, Mark makes us laugh at his witty one liners as well. Would highly recommend this book.
