Collins UK is a leading information-led publisher of illustrated and narrative nonfiction.

This map covers England and Scotland. For an overview of your driving itinerary and seeing the main highways it's good, but there's so much on it that it's hard to find towns and even cities. LOTS of villages and small towns in England! Can't really use it to plan a driving route that isn't on the major highways.

very detailed map, but HUGE. Not easy to use when planning a trip as we thought. Definitely not something to carry around with you. But if you like big, this is it.

I'm used to the clarity of Michelin Maps. I find this one clustered with too many details and lacking obvious landmarks like Heathrow airport.

Missing many key B roads -which many historic locations are located just off B roads ...needed to buy another map in the UK that denoted detailed roads

Wanted something that would show Scotland in detail and this definitely delivers.

Nice map. But no attractions on the map like Stonehenge.

Excellent Map.

Looks like it will be very useful on our upcoming trip but cannot say how up to date it might be until we use it in Britain. Stay tuned.
