Here in Brazil, I read this concise and excellently written book. This book is about Mauritius islands, its dependences and the French island of Reunion. Rodrigues, a part of Mauritius has an entire chapter for it. French island of Reunion has the last part of this excellent book for it. Some of the great things of this book: 1- The main hotels and restaurants of these small islands are in this book. Qualities, problems and even more, the prices of hotels and restaurants are in this book. Restaurants with their specialities are ever well presented in this book. 2- Every (important) part and islet of Mauritius and Reunion is covered in this book. 3- The author really knows the subject of this book. 4- This book doesn't lose time with useless subjects. 5- This book is very well organized and written. The photos of this book are just about twenty, but with a so well done text, I have to give five stars for this book, because its text deserved six stars, if I could give to it.
