Customer Reviews

I have the former Kindle edition Not clear form the commentaries what is new in this edition.....if not for a new ACE or CC-blocker?? I would be wise that would comment on this. The book [my edition] is clear and has certainly very useful information. More personal experience one can find in:

Hypertension and you [Samual J. Mann, M.D] which is really excellent.

Excellent advice for the health-conscious.

Valuable book. I just purchased this book and so far it's great. Really informative and easy to read. I suffer from the condition so hoping the book can do me some real good. Thanks to the author.

I bought this book because my husband is very interested in the topic. HBP runs in his family, he got it a wk ago and he's almost done reading it. He found the information highly helpful. Great book!

Everyone with High BP should have this

only informative if you profoundly uninformed

This is really very useful for the person who is new to having high blood pressure.

Very informative
