How Obama Betrayed America....And No One Is Holding Him Accountable

Synopsis

Lying about the reasons that an ambassador and three other Americans were murdered in Benghazi on 9/11/12—jihadi terror, not some trivial internet video was to blame—is only one of many indications that Barack Obama does not take the threats facing America seriously, and indeed, may think that the U.S. is so guilty for past transgressions that it deserves to be chastened on the world stage. As David Horowitz shows in this no holds barred pamphlet, minimizing the Islamist threat to the United States is not an oversight of the Obama administration; it is policy. The most dangerous Islamist regime, Iran, is being allowed to acquire nuclear weapons while Washington dithers over pointless negotiations and stands by as the mullahs fill the vacuum in Iraq created by the withdrawal of all American forces, against the advice of the Joint Chiefs of Staff. In Afghanistan, supposedly the "good war," victory is not an option; the Taliban licks its chops and waits for American troops to leave in ignominy. Meanwhile, this White House has facilitated the rise of the Muslim Brotherhood throughout the Middle East, helping it come to power in Cairo, bankrolling it and giving it F-16s that are likely someday to be used against Israel, and displayed weakness in Syria by ignoring "red lines" it said would never be crossed. It is a low point for America, as David Horowitz shows, with Republicans, traditionally the party of strong national security, offering only an echo, not a choice in American foreign policy, watching in a state of policy paralysis as Obama appeases our enemies and enables their evil ambitions.

Customer Reviews

Ever since he shucked his communist upbringing and subsequent toadying to communism-socialism, Horowitz' analysis of the "wrongs" of the left have been superb and insightful. He knows intimately the evils, meaning the destruction of the human spirit and productivity, of the efforts to perfect humankind in the image of a "god" of Utopianism." When I was in Xi'an recently, I stumbled upon a T-shirt that shows even the Chinese have got it right.

Obama wanted to fundamentally change America. This shows some of his efforts. To create one must first destroy, and that is what the Obama reign was all about.

This is very enlightening. We have to over come the propaganda and unjustified political party and be Americans again. Thanks for the great book, David.

This was scary...I tried to give the man a chance but I'm afraid his lack of experience has damaged his Presidency. I find it awfly hard to ever believe what comes out of his mouth and that is sad. Its a tremendous responsibility for one man and you need to have some working knowledge of how government really works, not what you wish it to be. I'm glad I read this I wish I came away with a better feeling....Eths

This book is an eye opener, the damage Obama has done to our country is horrendous, he George Soros and the liberal colleges (many which are subsidized by tax payers dollars) not to mention the main stream media, the damage that is being done to our country is terrible! The biggest problem I see is that most people just don't want to think for them selfs, they just believe whatever comes across the TV and they don't cross check anything.

The book title tells it all. The Democrat party is supporting Obama. It's all about remaining in office

and power, and not for the best for this country. I want this country to remain free, a democracy and republic. Obama impresses his followers of his great eminent worth and value, when in fact he has nothing in his background of significance to be a street sweeper.

This pamphlet basically summarizes all that I have read and perceived coming from our current administration with regard to the ME foreign policy and Obama's perception of Islamic culture and politics. It's nice to know I am not the only one who sees what I think I'm seeing as I could never be sure if my perception was accurate or even approximately accurate. What I find truly distressing is that 44% of this country still supports Obama and his administration. I think history will look back on this administration as either a disastrous point of inflection in American history, and maybe world history, or a very damaging aberration. I sincerely hope its the latter. Thank you Mr. Horowitz to have the courage to state what many can not or will not state.

Dave Horowitz, the EX Progressive, is the best on to expose these America haters in our mist. We seem to be on a destruction course and no warning or proof can pull us out of this power dive for the bottom.
