## **Customer Reviews**

Peter Kuhfittig has taught mathematics at the Milwaukee School of Engineering for over thirty years and has served as head of the department for over half of this period. His enthusiasm for teaching has resulted in an award for excellence in teaching, as well as an interest in textbook writing. He has been involved in applications of mathematics through occasional consulting work. More recently, Dr. Kuhfittig has turned to research in wormhole physics.

Well I actually hate the book since the example and problems are a lil tough to follow. But I got exactly what I was supposed to so Ill give it a bit higher rating.

Book was in excellent condition. Exactly what I needed.

Cover falling off.
