# The Pineal Gland: The Eye Of God

## Synopsis

2015 Reprint of 1934 Edition. Full Facsimile of the original edition. Not reproduced with Optical Recognition Software. Comprises Chapter XVI of Hall's "Man: The Grand Symbol of the Mysteries." Scientists refer to the pineal gland as the "atrophied third eye." Indeed, it, along with the pituitary, is the third eye chakra or energy center, but are more dormant than atrophied. According to Max Heindel's, in the distant past, man was in touch with the inner worlds through an activated pineal and pituitary gland. Considered the most powerful and highest source of ethereal energy available to humans, the third eye has always been important in initiating psychic powers (e.g. clairvoyance and seeing auras). Manly traces the historical significance of the gland and its spiritual value.

## Customer Reviews

If you are expecting a book, then you'd be disappointed when you receive an article that does not take up half of the amount of pages used (there were about 15 blank pages, good for notes, I guess). I recommend the material, since Manly P. Hall's essays are very obscure. Just get a used/cheap copy and you'll be set. Don't bother paying \$12.00 bucks for an article.

This is a great little book, but totally NOT worth the price. a big whooping price \$11.00 information is good but take form another book to make this one!

When I first looked at this book's Inside I thought "Oh! This is something I should have. This knowledge is precious!" So , I ordered it, being surprised by it's low price. But when I received it, I

realized why.... The "book" is a 13 page document that states beautiful things, but is not worth 1\$ a page.

You learn nothing from this book, you find more detail about the pineal gland in Melchizedek and the Mystery of Fire

like,

Not what I was expecting, should have paid more attention. It's only a chapter out of a much larger book. Great info though if you were alive in the 19th century.

long time ago, not read, all perfect. so far so good.

A great book about the never seen gland that may be our 3rd eye and has access to all the knowledge in the universe.
