Wicca Candle Magic: A Beginner's Guide To Practicing Wiccan Candle Magic, With Simple Candle Spells

Synopsis

Everything You Need to Know to Start Working Candle Magic Today The use of fire is universal in religious and spiritual practices throughout the world. However, it could be said that Wicca and Pagan traditions are where fire really takes center stage, whether it's a ritual bonfire, tall candles honoring the Goddess and God, or small tea lights marking the boundaries of the sacred circle. One of the most delightful ways to work with the transformative Element of Fire is through candle magic. Simple, elegant, and highly symbolic, candles make it easy to work with this power in the form of a single, mesmerizing flame. Candle magic is a way of harnessing the unseen energy of the Universe into particular thoughtforms that work to effect a change in the physical world—whether that change is tangible, like more money in your pocket, or intangible, like a more positive outlook on a situation that once seemed hopeless. Candle magic is not only powerful, but is also regarded as the easiest and most simple form of magic for beginners to learn. This makes it an ideal starting point for anyone looking to start practicing Witchcraft. But while this guide is written from the perspective of Wiccans and other Witches, you need not identify with these paths to benefit from the practice of candle magic. No matter your spiritual leanings, you will find valuable, empowering information within these pages. Unlike many other books on this fascinating topic, Lisa Chamberlain's *Candle Magic* goes beyond simply providing spells and a brief list of color correspondences. While these are certainly essential components of a book on candle magic, there's a much bigger picture to understand. Using core concepts found in the ancient wisdom of the Hermetic Principles, as well as long-held traditions of color associations relating to specific goals, Lisa takes readers through a step-by-step explanation of how fire and color work together to manifest the changes you seek. Rather than wondering whether magic works, you will actually know how it works, which tremendously strengthens your odds of success!

Foundations of Candle Magic Although candle magic can be delightfully simple, there's still more to it than just lighting a votive and saying a few words out loud. Like any other art, there are technical (not to mention safety) considerations, as well as other “tricks of the trade.” In this guide, you'll find:

- Core concepts underlying the “why” and “how” of candle magic
- Practical tips for selecting candles based on your magical aims
- Instructions for clearing, charging, anointing and inscribing your candles
- Candle spells for love, prosperity, healing and more
- Instructions for making your own herb-infused anointing oils
- Tips for timing your spellwork in accordance with Moon phases and the days of the week
- Suggested sources for further reading for those who want to explore candle magic further
- Tables of correspondence with colors, herbs and oils, and days of the week for easy reference

With the help of this guide, along with some patient

practice, you will soon be discovering your ability to shape the circumstances of your life through the power of candle magic. Once you get the hang of it, you'll realize that the possibilities are truly endless! If you're ready to learn about the magic of candles, scroll to the top of the page and select the buy now button. Readers will also be treated to an exclusive free eBook!

Lisa Chamberlain's books on magic are very well written. There is a lot of information on how to construct the spells and even if there are specific times to make the spell happen. Overall I would suggest these books to people looking for a great place to start with candle magic.

If you are looking for a book to walk you through using candles for a connection to the spirit realm this is a perfect place to begin your journey. This book could also serve as a good reminder of the power of candles for those who have long incorporated candles as part of their worship and magic. It is well thought thru and the ease of reading the book enhances the experience of getting to the meat of the facts. It offers suggestions and solutions without stating there is only one way to find the path to your desired end results. It is a great primer to have on the shelf and will serve as an excellent simple primary quick guide.

I really enjoyed reading this book. It's been years since I've done any spell casting, and although I'm not ready to begin casting again, I am devoting more energy to mine and my family's spiritual

health. I love that she spends time discussing how to clear candles for atmospheric use as well as spell casting. The spells themselves are simple, easy to follow, and easy to customize. Having easy to read charts with the properties associated with colors, oils, herbs, and days of the week mean that this will be a handy go to resource when I am ready to begin casting again. Great for beginners, and for begin againers, too!

I loved this book. It was layed out great and was easy to understand. Matter of fact I got this book right before I went to bed with intention of reading the next day but my impatient self decided to read one page. One one page turned into ten and then the next thing I know I'm done with the book. Its a page turner for me. Its well researched and gave plenty of suggestions of what you can do with candles for the purpose you may need. Will be recommending it to some of my friends.

Simple, straight forward introduction to candle magic. I love how there are charts for essential oils, days of the week, candle colors, and herbs oriented towards any type of spell you wish to create!

Lisa Chamberlain has such a beautiful way with words! I love that she is so open, & encouraging in her books about finding what really works for the individual! This is one of my favorite books of hers. I think Candle Magic is essential to a Wiccan, & she covers a lot of great information in a small book. This book gave me a better understanding of the power of fire magic. The spells are wonderful, & simply put to! Get yourself this book.

Very interesting book! Is a great intro to basic candle magic that is written simple enough for the amateur witch. Contains methods of consecrating your candle, charging it, and anointing it. I did not know of all these steps involved before! I am so excited to use this book when I start practicing my candle magic. Excellent read.

I am relatively new to Wicca and I would recommend this book. It was easy to understand and was very informative. I learned some new things and had some information reiterated.
