If you are taking a legal research class, learning to write or understand "Internal Opinions", write briefs or just plain improve your legal research skills; this is the book for you. It goes into intense detail on the steps to reading a case, how to brief a case, and how to write your case analysis, internal memo's etc. If you are planning to go to law school, you may want to read this text book. This is subject matter that is covered in your first year of law school. If you have limited or no experience in reading briefs, then it will come in handy. This book does give a quick introduction to IRAC for the new law student. The sections on Identifying the case, history, objectives, parties, key facts, theories, holdings, issues, reasoning, etc. are priceless and well worth the cost of the book itself. Additionally, each chapter goes over the rules in such a manner as to introduce you to legal writing in a sensible easy to learn method (if you can refer to legal writing as ever being "easy"). The best part of this book is that it gives you the basis to write persuasive papers that are not full of useless legal argot that would offend the intelligence of the legal reader. It is to the point. I should point out that it has helped me be at the top of my legal classes by giving me the basis from which to organize, write and present my papers. I recommend it as a good source to build from.

Legal writing can be very confusing, especially for a student just entering law school. Fortunately, this text explains how a student can read legal cases, laws, and statutes without getting confused. This book teaches students how to read various legal items and concisely write legal papers to reflect what another person needs to argue in order to win a case. Great book for legal writing and strongly recommended for any law school student.

Perfect condition!

A must have book, clear and easy to read. Excellent book for the study of case law and legal writing. Recommend it highly for the first year law student

A good fundamental book that addresses things you don't think about when writing outside the legal

world. Easy to read.

I finished the law school and passed the bar. Thank you. Without those cheap text books, I would waste more ...

very helpful for the course taken
