## Synopsis

Would you live a lie to hold onto the one you love? Dean and Jason are best friends, like brothers since boyhood, now architecture students and college roommates. They've always had each other's backs, but when one walks in on the other with another man, everything changes. How do you explain to your best friend that he's the one you've always wanted, that until now your life has been a lie? Desperation and shame are two dirty words that run through Jason's veins. He carries the scars from a wayward priest who stole his innocence and left him shattered. Meanwhile for years he's watched Dean pursuing woman after woman, as his own heart slowly breaks. When their world blows apart, they learn the powerful bond between them has more fire than either understood. Can two broken souls find the light in their darkness and come together to make a whole, or will sins of the past be forever unforgiven?\*\*\*This standalone is a M/M love story with graphic sex. Trigger warning.

## Customer Reviews

Amazing love story that gripped me from start to finish. I felt a full gamut of emotions while reading Unforgiven. This book won't leave me any time soon either. I still think about Jason and Dean. It's a fiction story I wish was real.

This book is fabulous! I love Jason and Dean. I just finished this book, and I want to read it again!

This is a beautiful and at the same time heart wrenching story of two best friends who have always dreamed of opening an architecture firm since the first drawing they did together when they were 13. Jason has been secretly in love with Dean, but has been afraid to share that & other dark events fearing he would lose the only constant in his life his best friend Dean. Many events occur in their last year of college that rock Jason and Dean's friendship; it has Jason questioning if he really deserves Dean's love or anything good and Dean is questioning his new found feelings he is having for his best friend Jason. They fight for their friendship and so much more and with the support of Dean's Family, they realize that the love they feel is genuine, they are true soul mates and with each other's support they can make it through anything. It's sad that people are still hiding because they are afraid of being judged for their true self. Thank you Ruth Clampett for writing such a beautiful and thought provoking story that shows love *is* love for all.

Talk about Hot Steamy Scenes in a book!!! Ruth Clampett never disappoints in the storyline and Unforgiven was addictive from the very 1st chapter. If you want to read some M/M, look no further than this book.

So good. A messy path to the good life. That the road that most of us have to take. This book reminds us that finding our happy isn't always easy, and the journey is just as meaningful as the end goal. I read a lot. Few books leave me thinking about them hours after I read them. This was one of those books.

This story was heartbreaking, gritty and all consuming. I loved every word!

. . . . Words have kind of left me. My heart is so full of hurt, sadness, anger and of course, love, so much love. I fought with the rating on this, but in the end, I am a total mess, all the feels, good, bad and downright ugly and still floating around and leaving me in a bit of a funk, therefore, this deserves nothing less than 5 stars. When I saw the teaser for this come across my blog, I was like

"YES! I need this!" and somehow convinced my bestie, Ang from PNR Book Lover Reviews to buddy read with me (she will be thinking twice next time lol). Dual POV normally aren't my fav, it's so easy to get lost and forget whose head you are in if it's not written well. This was not an issue, Ruth's writing style is incredible. You feel every little (or big) emotion these men go through. Jason (JJ) and Dean have been best friends pretty much forever, only Jason's feelings have always been more than just friendship, he has been secretly in love with Dean all along. Ashamed and damaged from things from his past that has truly messed with his head and his attraction to men, Jason tries hiding his true self and his true desires by acting like the biggest playboy going around. That's until one night at a party Dean walks in on him and Roman (aka douchebag.) Dean is straight, like an arrow straight and assumed Jason is just as straight as he is. Walking in on a guy giving JJ head leaves Dean confused, jealous, angry and more worrying to himself, turned on. While these two explore their new found feelings, and boy does their exploring get hot enough to melt your kindle and leave you heading for a cold shower, they also tackle some really hard subjects and obstacles. This story takes on a Very angsty, bumpy and brutally heartbreaking real and raw road that will leave you crying, from both gut-wrenching sadness to over the moon happiness, cursing, falling in love to growling at your kindle, and that rollercoaster of feels is totally on repeat. Without giving too much away, this story will take you on a journey that you won't be forgetting in a hurry. Jason and Dean are both strong, courageous, real characters that show you, no, makes you feel that Love is Love is Love and love will always have your back.

Book was interesting , however was too graphic for my reading pleasure
