Customer Reviews

Winner of Canadian Toy Testing Council Three Stars Award, Oppenheim Toy Portfolio Gold Award, National Parenting Publications Gold Award, Selected as Outstanding by Parent Council

great informative book, my granddaughter loves it.

My kids always ask me to play modeling clay with them. I don't have much artistic sense so I bought this book. I find it very useful to learn basic techniques and get ideas for our projects. Kids and I would flip through the pages and pick one project we want to try. The projects are all so cute and colorful. It is fun just to look at the pictures. I like how the book shows the basic steps for certain projects and offered variation based on it. I also like the variety of projects. Not just clay figures but also many decoration and craft ideas. My older kid in primary school can follow the instructions by himself. The paper is thick and sturdy which is very important to withstand my kids' rough love.

I bought this book nearly 10 years ago now and I still recommend it. I found out about polymer clay through this book. An instant start. As an adult I enjoyed the projects and it was a great way to jump in to a new hobby that became a way of life. This year I bought it for my ten year old niece and now all she wants is polymer clay. Easy way to start claying.

My 9 year old grand daughter immediately dropped everything to look through this book. She declared it was exactly what she needed to make clay objects with all the clay and tools she'd received for Christmas.

I am very happy with this purchase. It was shipped the very day I ordered it. It was listed as new-good condition but when it arrived it was actually in excellent condition and to my surprise came with a bonus 8oz of multi colored clay. very pleased.

Good classic craft collector book.

Many great ideas in this book. A wonderful addition to our workshop. The kids love to make those and so do I!! Gracias

All the books I purchased came within a reasonable amount of time and are all in very good condition. I have enjoyed reading them.
