He is a professional instructor at ABC Music, which he owns, and also records extensively in his studio, where he has done the sound track to several movies. He performed several years with Home Remedy and is currently performing in the Atlanta area with his band Blue Moon.

I can't say enough about this book. All songs have three breaks except the first song which basically gets you started flatpicking. The breaks are very good and could be used at any jam. The audio examples are excellent at two different speeds. This is a good book for beginners or intermediate players looking for something new.

haven't used it yet.... but will soon... great book ...
