If you like easy piano jazz, this book is for you. I'm an intermediate pianist and I was able to play multiple pieces from this book without even practicing them. Some of the pieces require you to work on your rhythm, but most of them are extremely easy. If you know how to play some ballad style piano, you should be able to play them.

I play a lot of songs in part from memory and do my own arrangements. My husband asked me why I didn't play the entire songs of John Tesh and I told him that I simply can't remember that much in my little brain. Now, I have all the notes of many of our favorite songs. Now all I need to do is practice, practice, practice. I can tell why the book with the songs looks so new. The pages won't stay open with the kind of binding it has, and I'm the first one to put creases in the cover for easy note reading. The arrangements are very playable, even for a beginner.

Had these decades ago when I was in High School. Just got access to a keyboard, so I love having

familiar music to shake off the rust! These songs are designed for piano and are around an beginning-intermediate level. The songs are beautiful.

This music book is based on John's CD, Live At Red Rocks. It has most of the songs performed at the concert, including Concetta, Garden City, April Song, Shock, Key of Love, A Thousand Summers, ect., and a few others, Good Night Moon, ect. The songs are accurately transcribed, and are fairly easy to play. If you want to impress your friends and family, this is the song book for you!
