Orv is president and founder of Auto Venture, one of America's most distinctive tour operators specializing in customized driving tours. A veteran travel professional with more than 40 years' experience, Orv has logged over 100,000 miles throughout Europe--covering the UK and the continent, from the top of Norway to the Strait of Gibraltar and all stops along the way.

Lightweight. Unless you plan on following the recommended route, it's primary benefit is explanation of traffic symbols and Italian driving habits, which you can get elsewhere

Not a lot of detail but adequate for an overview. If you are driving through Italy you will need a driving or touring map since many roads can be winding and steep.

So glad I read the guide before my trip to Italy. The information provided was invaluable!

I’m planning a trip to Italy with my college girlfriends. We liked this book because we want the flexibility of driving as opposed to taking trains or a bus tour. Thinking about driving in a foreign country made us feel a little intimidated at first, but the book gave us lots of practical tips and actual driving routes to take...so now we have more confidence. We also thought the routes in this book would be less crowded than more mainstream publications...

We loved loved loved this guide! Outstanding! We have been to Italy several times and decided to go off the beaten path for this trip. The villages and towns that Orv Strandoo recommends are NOT to miss. Way less crowded and much more charming than the other guide book itineraries. Also, the explanations of road signs and laws were invaluable. A must for every tourist who loves the Boot.

Being a first time driver in Italy I found this book extremely helpful. I was hesitant about renting a car but this book gave me all the basic info I needed as well as some great itineraries. Looking forward to my next trip!

I found this book to be a waste of time and money. I expected it to be more explicit and helpful. Don’t bother buying it. See if it’s at your library and spend 10 minutes reading it instead.
