Wit And Wisdom Of The American Presidents: A Book Of Quotations

Synopsis

"I know only two tunes," said Ulysses S. Grant. "One of them is Yankee Doodle and the other isn't." Jimmy Carter observed: "Whatever starts in California unfortunately has an inclination to spread." And Warren Harding complained: "The White House is a prison. I can't get away from the men who dog my footsteps. I am in jail." This entertaining, handy little book includes over 400 other memorable quotes, expressed by America's chief executives over the past two centuries, among them Chester Arthur's blunt, "I may be President of the United States, but my private life is nobody's damn business," Calvin Coolidge's terse "The chief business of America is business," Dwight Eisenhower's "Farming looks mighty easy when your plow is a pencil, and you're a thousand miles from a cornfield," and George Herbert Walker Bush's "Read my lips, no new taxes." From George Washington to Barack Obama, these presidential declarations will not only provide public speakers and students of American history with a wealth of useful material, they'll also delight general readers.

Customer Reviews

My main complaint is a bit unusual, but you should be forewarned. This slim paperback volume is printed in what appears to be 9 point type, i.e. the letters are significantly smaller than in "normal" books, with less space between lines. It makes it uncomfortable to read.

This is an excellent reference for writers and readers of any ilk. The quotes are well chosen, and almost every president is well represented with the quote selection. The book is easy to use to the point of being faster than an electronic reference. It is no tome, but isn't meant to be, either. Especially eye opening and useful are the quotes of the early presidents and founders of our nation.

For the price a good assortment of quotes. Just dread the next edition where build the wall will surely appear

It's ok. Save your money and look up quotes by presidents online. That's all this is.

Moving speeches from icons who help shape the world.

An enjoyable historical read.

We bought this little book to send to an out-of-town friend who expressed admiration for quotations from it which we post on an internet social networking site. The Presidential quotations cover many subjects and are for the most part still appropriate for current political events. We recommend this little book as a valuable addition to the reference section of any library.

this was a gift.
