I'm using this book as a textbook for a class. The formatting of the text is very nice - everything is so organized. The review content in the back is broken down by chapter and is perforated for easy removal. With a brand new purchase, you can access the online content. It's okay, I guess. I haven't really used it. All in all, a good textbook. It doesn't want to make me pull my hair out trying to read it.

The book was in good condition but the description states that the book purchase includes access code. The access code is only good for one time use as I have found out with this purchase. Unfortunately my class requires much of the information that I can't access because I do not have the access code. My recommendation is purchase a new book as I have to do now.

I bought this book for a college course, obviously. It was well written and east to understand.

Great book at a great price.

Very informative book. It's all life skills.

I love renting the books I won't need after the semester is over! This was in great shape and worked exactly as I needed it to - and I got an A!

Easy read, short chapters with excellent reference section.

Very easy to read and understand. Chapters aren't too long.
