FOR REFERENCEINDEX

Using this book to prepare for the AB test helped our son achieve a 5. As advertised, the practice tests seemed a bit harder than the actual test. Good luck!

Ok

The book is good if you just need to brush up on what you know. I wouldn't recomend the book for self-study. The author is more interested in teaching you what to do and not why you do it.

Right level for AP.

my kid liked is, very helpful guide!

good !

Excellent

All student just use that
