Anne Rogers is Professor of the Sociology of Health Care and currently directs a programme of research on self-management and chronic disease management at the National Primary Care Research and Development Centre, Division of Primary Care, University of Manchester. Her PhD on psychiatric referrals from the police began her academic career. Her current research interests include sociological aspects of primary care and mental health. David Pilgrim is Clinical Dean, Teaching Primary Care Trust for East Lancashire and Honorary Professor at the Universities of Liverpool and Central Lancashire. His career has been divided between higher education and the NHS. He trained as a clinical psychologist before completing his PhD on NHS psychotherapy. He subsequently completed a Masters degree in Sociology. Since then he has retained both a clinical and research interest in many aspects of mental health work.David Pilgrim is Professor of Health and Social Policy, Department of Sociology, Social Policy and Criminology at the University of Liverpool, UK. After training and working as a clinical psychologist he completed a PhD examining

psychotherapy in the organisational setting of the British NHS. He then went on the complete a Master s in sociology. He has worked at the boundary between clinical psychology and medical sociology for the past twenty years and has produced over 60 articles in peer-reviewed journals, based upon his research into mental health policy and practice. His years working in the British NHS provided him with extensive everyday experience of the theoretical and policy aspects of mental health expressed in practical settings. One his books, A Sociology of Mental Health and Illness (3rd edition, Open University Press, 2005), co-authored with Anne Rogers, won the British Medical Association s medical book of the year award for 2006. Currently he is writing a book on critical realism and mental health (Routledge, 2014) and is co-editing (with John Hall) a book on the history of British clinical psychology for the British Psychological Society. This will commemorate the fiftieth anniversary in 2015 of the establishment in the latter of the Division of Clinical Psychology.

An excellent textbook. It leans toward British examples, but the fundamental perspectives are appropriate.
