# Lemurian Scrolls: Angelic Prophecies Revealing Human Origins

## **Synopsis**

Enliven your spiritual quest with a lavishly illustrated, clairvoyant revelation of man's untold journey to Earth from the Pleiades millions of years ago, and the struggles faced in ensuing eras as souls matured into their ultimate destiny and Divinity. This unusual book by Satguru Sivaya Subramuniyaswami was actually read from the akasha in 1973 and spent 25 years entrusted only to his cloistered monastic order."The Lemurian Scrolls will enlighten all who read it and it will become a "Source" that will constantly be referred to by serious students, teachers, leaders and metaphysical and spiritual groups." (Patricia-Rochelle Diegel, Ph.D)

## **Customer Reviews**

The most important book I've read about our origins. I'm so happy to know that ancient information has been preserved waiting for us to be ready to hear it. Our picture of history is so limited. This copy was purchased as a gift. I found my first copy sat on my shelf for several years before I could read it. There are books we pick up before we're ready for them. Now I'm reading it over and over.

This profound translation gives details of the monasteries, the monastics and gurus and their

function for the Earth and the Human race. It also describes the eons of time Humans have spiritually evolved on Earth into Yugas, identifying each Yuga, its purpose and energy vibration. There is much to know about the system in which we inhabit as a corporeal and spiritual being, this book assists with the comprehension of the multidimensional world.

Great book to reference.

Great

excellent historical narrative Loved it

For a chronicle of events so remote in time, this book is surprisingly readable and simply fascinating. Great cycles of time known as yugas are described with changing planetary conditions as we travel around the Central Sun. The geology reveals a large land mass existing for millions of years before the oceans split it into continents - we're talking about a very long time ago! The scrolls also deal extensively with the coming to earth of divine souls from other planets and the eventual formation of monasteries, hierarchies of power and monastic life in much depth and detail. If you want to step out of your comfort zone, take a trip way back with this book for an eye-opening and thought-provoking look at a world different in every way from the planet we know today.

This book has been recommended to me and I find two books with the same title. Is one just a newer edition of the same book?
