Customer Reviews

The subtitle ("The Ultimate Guide to Characters, Aliens, and Technology") is pretty darn misleading. I would hardly call this the "Ultimate Guide" to anything other than a cliff-notes guide to Star Trek. Don't misunderstand me, I knew the book was only 96 pages - so I wasn't expecting a novel of info - but I was expecting more than what was printed. Some of the people that they covered were multiple pages of info... but they were ones we already know a good deal about. I'd have rather had more info on other species The info that IS in the book is great, the photos are great also. I feel the older Star Trek Encyclopedias were more informative... but... they didn't have nearly the pictures that this Visual Dictionary does.

Very helpful and accurate book...I think it's one of the best made

Has great pictures & facts from all the series.

gave as gift for someone, wish it had more

Excellent source of pictures and information about Star Trek and the Star Trek Universe. Not an exhaustive read and it doesn't go into as much detail as a real Treker would like, but it shows a cursory view of all that is Star Trek.

Got this for my nephew whose a huge Trekkie and had to order at the total last minute because I had an another seller take my money for another star trek item but never actually sent it out! This had never happened to me before so I found myself trying to find a gift for my nephew on the last day for free shipping and this is what I selected... turned out this was a MUCH better choice than the other gift I had got him anyway, the pictures are great and it is just super fun to look at, the whole family passed it around.

Great

I'm glad that the people at paramount and CBS finally released a book that fills in the dots in Star Trek History. Course i wish it was more like "Indiana Jones: The Ultimate Guide" and "Star Wars: The Ultimate Guide" where it give it a bit more information on events that happen during the journeys. That's the only thing i wish "Star Trek: the Visual Dictionary" had; more information on the journey, notable first contacts, information on villains, and information on key missions. Other than that a must have for all Star Trek Fans.
