Lots of folks use these cards while in the car with the kids, but we use them while they are in the bath. The boys love math, and this is a fun way to interact while they are getting cleaned up. We can shout them from our bedroom, and they can yell them back from the tub.

I have used various Brainquest products for all 5 of my children. This was my least favorite of all the ones we have. My son found it difficult to do the math in his head for many of the problems. In all fairness, math is not his strong subject. If you have a child who enjoys math and is pretty good at it then they would probably like these!

My 2nd grader loves this cards and I do too! I bought his next grade so he would be advanced to his next level. It is the perfect entertainment for the road.

Bought as a gift , Little one loved it!

Summer teaser

It is way to get smart kids with brain Quest math. I bought this for our grandson and it seems to excellent tool to be exposr to math in their earlier ages.
