# **Galapagos: Islands Born Of Fire**

## Synopsis

Ever since Charles Darwin visited there in 1835, the Galapagos have fascinated us like no other spot on Earth. This richly illustrated book captures the ethereal, haunting quality of the Galapagos and of the birds and animals that make these islands their home. Acclaimed wildlife photographer and writer Tui De Roy has spent her life exploring the Galapagos and recording their secrets. Here, in spectacular full-color images and in her own words, she shares her intimate knowledge of the islands and her deep love and respect for the natural wonders they conceal. De Roy takes readers from vibrant coastlines to sheltered interiors, photographing penguins, turtles, and marine iguanas. She visits active volcanic calderas, where life hangs in the balance each time the volcano remakes itself. De Roy follows the seasons of the giant tortoise, dives into the twilight world of sperm whales and hammerhead sharks, and treads on still-steaming volcanic crust. She also makes an impassioned plea for conservation. This updated tenth-anniversary edition of De Roy's celebrated book offers an unforgettable photographic tour of the Galapagos. Explore with her the incredible diversity of wildlife and habitats that rank these islands among the most fascinating and exotically beautiful places in the world. Features 245 stunning full-color photographs Includes De Roy's insightful commentary Showcases some of the award-winning photographer's finest work Brings the natural wonders of the Galapagos to life

## Book Information

## Customer Reviews

"[E]ngaging and inspirational. . . . The author makes one appreciate the fragile beauty of the fiery

isles."--The Press"The book is elegantly structured: each chapter emphasizes one distinct aspect of the Galapagos in the hope that by 'displaying visually the essence of its splendid wildness,' the volume can serve as an inspiration to ensure the survival of the islands' threatened animals."--Scientific American"In words and pictures, De Roy captures the ethereal, haunting quality of the islands with their cold seas and burning rocks."--Ocean Realm

Tui De Roy is a world-renowned wildlife photographer, writer, and conservationist who grew up on the Galapagos and returns there frequently today. Her books include Galapagos: Islands Lost in Time; The Andes: As the Condor Flies; and New Zealand: A Natural World Revealed. She lives in New Zealand.

Having just returned from a holiday in the Galapagos, I am delighted with the quality of the photographs and content in this book which serves as a beautiful reminder of our very special visit to this amazing place.

A beautiful book full of text and gorgeous pictures. Wonderful and perfect for a Galapagos fan. I would highly recommend this book.

Bought as a gift for a client who has planned a trip this spring. Beautiful beautiful book inside and out and they love it.

Great coffee table book... and helps us remember an amazing vacation!

Excellent information on island formation and beautiful pictures! Makes you ready to book a trip as soon DVD is finished!

A perfect set for a beginning golfer

A great and beautiful tabletop book to remind you of your trip to the Galapagos

I chose a 5 star because the service was prompt, the book as promised, and building excitement over a trip our children will take next year.
