Wisdom Of The Sand: Philosophy And Frank Herbert's Dune (Critical Bodies)

Synopsis

Frank Herbert wrote six novels now referred to as The Dune Chronicles. The Chronicles are famous for their tightly woven narratives, colorful characters, and plans-within-plans multilayered plot-lines and intrigue. This book culls from the pages of The Chronicles not the action, adventure or drama (as presented in the movies), but the politics, religion and communicology of Dune- the underlying philosophy that motivates the characters to action. The purpose of this book is to unpack Herbert's ideas, and to find a place for them in our lives, learning, knowledge and wisdom. Herbert gives us the Mentat, or human computer, as an emblem of his creation; we seek here to learn from Dune's uncommon wisdom the Mentat's way of perception. We seek to interpret these Chronicles in terms of these times, and within the purview of the philosophy of communication and cultural studies. Thus, this book might be called the Mentat's Handbook -v2.0. Think of it as a Dune companion.

Book Information

Series: Critical Bodies

Paperback: 226 pages

Publisher: Hampton Press (February 19, 2013)

Language: English

ISBN-10: 1612890091

ISBN-13: 978-1612890098

Product Dimensions: 0.8 x 6 x 8.8 inches

Shipping Weight: 10.4 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #2,035,669 in Books (See Top 100 in Books) #98 in [Books > Reference > Writing, Research & Publishing Guides > Writing > Science Fiction & Fantasy](#) #1102 in [Books > Literature & Fiction > History & Criticism > Genres & Styles > Science Fiction & Fantasy](#) #1224 in [Books > Science Fiction & Fantasy > Science Fiction > History & Criticism](#)

Customer Reviews

Franklin Patrick Herbert, Jr. was a critically acclaimed and commercially successful American science fiction author. Though also a short story author, he is best known for his novels, most notably Dune and its five sequels

Given the lack of reviews, I took a \$25 chance on this book, and I was not disappointed. If you had the intellectual energy to make it through the Dune Chronicles, you will find this commentary a

profoundly enlightening companion. The author, Kevin Williams, unearths much of the rich philosophy embedded in Frank Herbert's masterpiece, whilst simultaneously instructing the reader on historical, social, and metaphysical theories. If you desire to come to a greater understanding of the themes contained within Dune, and how they relate to real-life philosophical discourse, I would highly recommend this book.
