## Customer Reviews

this book is simple, straight forward and actionable, you can understand it easily because it was well written, it will change the way you look at things, for the better, truly, this is a very enjoyable read, highly recommended

This book can be read in one short sitting. And... it has a glossary which is somehow a very classy addition to a nice, little book. Robledo has a likable voice. I am glad I read this book. The introductory chapter is not useful. The meat of the book is simply served and I appreciate that. I received some useful info which I am using at this very moment as well as a few ideas to implement later.
