Starfish (Let's-Read-and-Find-Out Science)

Synopsis

Starfish have arms, but no legs. They have feet, but no toes. Starfish aren't fish, but they are living animals. Kids learn how starfish move, eat, and grow in Edith Hurd's poetic text, illustrated with Robin Brickman's vivid watercolor collages. This is a Stage 1 Let's-Read-and-Find-Out, which means the book explains simple science concepts for preschoolers and kindergarteners.

Let's-Read-And-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series. Supports the Common Core Learning Standards and Next Generation Science Standards

Book Information

Lexile Measure: 170L (What's this?)

Series: Let's-Read-and-Find-Out Science 1 (Book 1)

Paperback: 40 pages

Publisher: HarperCollins; Revised edition (May 3, 2000)

Language: English

ISBN-10: 0064451984

ISBN-13: 978-0064451987

Product Dimensions: 10 x 0.1 x 8 inches

Average Customer Review: 4.7 out of 5 stars 18 customer reviews

Best Sellers Rank: #141,254 in Books (See Top 100 in Books) #60 in [Books > Children's Books > Education & Reference > Science Studies > Nature > Oceans & Seas](#) #71 in [Books > Children's Books > Education & Reference > Science Studies > Nature > Water](#) #315 in [Books > Children's Books > Animals > Marine Life](#)

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

PreSchool-Grade 2-This updated version has retained most of the text and all of the poetry of the original (HarperCollins, 1962; o.p.). The starfish is referred to as "it," instead of "he

"This updated version has retained most of the text and all of the poetry of the original. Lovely cut-paper collages placed on multicolored, watercolor ocean backgrounds make this easy-to-read title a treat for the eye."--"School Library Journal""Excellent offerings for young ones beginning to

read nonfiction."--"Booklist"

I really love this because it engages the kiddos in learning about science.

Loved! Easy to read, colorful pictures, teaches a lesson about starfish! Highly recommend!

Bought this to go with our trip to the Gulf with kindergartener. Although we didn't actually see a starfish we saw crabs and many other critters. She is familiar with starfish so the book was still very engaging and informative. We always like to make our vacations do double duty as fun times to learn. Great book and fun for kids

daughter loves this book. she had to do a report in first grade on the starfish and she enjoyed reading this for some "interesting" facts about the star fish. nice pictures.

My six year old loves this book. If your child likes the ocean, fishes or animals they will love it. Even if they don't its a fun read. Teaches all you need to know about starfishes.

my granddaughter is pretending to be a mermaid this summer so this book is great when she is not in the pool

Such a great book for my kindergarten class. It's a complex text and we studied the book in our readers workshop.

Nice book a little more wordy than I expected but the pictures are great.
