I bought this in a desperate choose seeing as school was selling it at least twice the price & financial aid wasn't approving it for my self.. Was sucks is that I waited to the last moment to buy my books online. Seeing as I got my book 8 weeks before my own teacher has received hers. This book is very interesting and I think I have learned and have been refreshed when it comes to the legal terms which is awesome. This is also a lighter book than what Legal Research & Writing 1/2 was. This book is thinner which makes me wonder if it will be the same book for Legal Research & Writing 3 & 4. Even though it was a used book it had no marks what so ever.

I had to purchase this book for a legal writing and research class, and I decided to keep it instead of selling it back. There is a lot of helpful information and resources in this book. I'm only halfway through, as the class takes two semesters, but I've looked through later chapters. I wish the discovery chapter was more advanced, but I've been working in a law office for like 8 years so I'm not a beginner in the discovery arena. Still, a solid book for legal writing and research.

I was very happy with the quality and the price compared to buying this at a college bookstore.

A solid guide to current day practices, procedures, guidelines and resources in Legal writing and

research. Worth keeping for educational library of texts used in degree programs completed.

Book was in perfect condition when it got here. Just what I needed for class.
