I am a junior college student studying the social sciences, specifically Criminology, Psychology and Sociology. I have never had trouble reading any of my other textbooks however, this is a different story. The setup of the pages is hard to understand. The author uses good examples however, he

uses far too many and goes in depth way too quickly. I have talked to other students and they have the same issues. Once you are done reading a chapter (usually about 30 pages a chapter), you do not even know what you just read.

I'm not the kind of person to buy books and read them for fun. This was a required text for a college course. I passed the class with the help of this book so I am pleased.

The book itself was in good quality, but I hardly ended up using it in my White Collar Crime class - ___ - But it got here just in time and was very informative :)

Good product and delivered on time.

If there is a word to describe the book I received it is DISGUSTING. The cover is all damaged, the pages are stained with coffee, and visibly dirty in other ways. This book belongs in the trash can.

Very well written, and the format was easy to read - wonderful book. The writings on Sutherland and the multistage approach to defining white collar crime is excellent.

This was a required textbook for school. It was as thrilling as you'd expect a college textbook to be. The author is somewhat bias but it contained a lot of useful information.

It's okay, but not my favorite for teaching a 300 level college class. Definitely need to supplement without side sources.
