Synopsis

This is a must have guide for the housewife who isn't perfect, has no dreams of matching the Martha Stewart's out there, but does take great pride in having a clean, charming, and tidy home. This is for the mothers out there that want to run the home and raise the children in a stress-free and affordable way. This is for the wife that would like to be the hostess with the mostess, but not toil and fret all day and has no talents in making radishes into roses. This is for the real housewive's that are a little funky, want to be frugal, want the adorable home, maybe a little farm in their Urban backyard, purposely don't match their sheets, like fun accent walls in each room, want to homeschool their children, need to do a major household budget, and downsize, but won't compromise on a good life. This is for the families that want to cut the grocery bill big time and still have their organics and non-GMO popcorn. This is also for the families happy to ditch the car and walk to save money and the environment but won't give up their entertaining and gatherings. This book is loaded with great advice and tips on everything from a household budget, making your own cleaners, going a little country in the city, throwing parties with a few dollars, and having a good life on very little.

Customer Reviews

This book has some decent although sometimes conflicting at times advice. I am a mom with children a little older than hers in this book (oldest is 7, middle is 5, youngest is 2). I feel like I already knew most of this advice and have read all the books she recommends. However for a new or younger mommy this might be more helpful.

I love this book. Everyone should get it. It’s great information on recipes, saving, travel on the cheap, great stuff.

Might be good for millennials wanting insight into a different way of living.

Great read...humorous and helpful.

Really A Great Item

This book has a lot of great tips and tricks for how to save money and stretch your income and resources.

Lots of ideas and inspiration! Ideas on cleaning, homeschooling, budgeting and more. It took about an hour to read. (I read fast).

I am still reading this book but have enjoyed it so far.
