## **Customer Reviews**

This is such a nice book for those who are interested in Jamaica's rich history. The book allows you to pick it up on any moment and read an interesting piece of history. You don't need to start from a to z, and read it thoroughly. You don't have to study. You can just grab and pick pieces of history on any moment. Nice short pieces, but with enough depth and visual material on very interesting subjects. Highly recommended.

Will use to introduce students to Jamaican history and past.

Have not read the entire book. I was born in Jamaica, and look forward to reviewing it in more detail. Enjoyed very much what I have read so far.

I enjoyed the well written and informative peek into the oft forgotten aspect of our mores, and the roots of some of our current practices.

Got the book in excellent timing!!! Bland new book! Thanks so much!!!! I recommend this book for everyone and this service!

Daughter bought this book while on vacation in Jamaica recently. Read it cover to cover and really enjoyed it. A lot of the history in it transcends just Jamaica and brings into place early western hemisphere history.

I purchased this book when I went back home to Jamaica Dec 2015 and have enjoyed it so much! I read a little at a time and know I will be rereading it in the future. The format in which it was written is very inviting and makes it an easy read. I had to purchase another book because my original book got soaked in iced coffee.
