Grand Master Lillian Too is undoubtedly the world's most prolific and popular writer and advocate on living with good feng shui! She has written over 100 books that have been translated into 31 different languages, and over 10 million copies of her books have been sold worldwide. After graduating with an MBA from Harvard Business School, Lillian went on to pursue a highly successful business career in banking and finance in the 1980's in Hong Kong. Her business acumen, drive and abundant energy soon led her from the finance world to the world of luxury department stores and boutiques where, through a leveraged buy out, she became Chairman and shareholder of The Dragon Seed Group. All the while she was guided and taught by her feng shui masters in Hong Kong and China - and she attributes much of her monumental and quick rise to success in Hong Kong directly to them. Lillian soon decided to retire from active corporate life and

return to Malaysia to raise her beautiful daughter, Jennifer, and spend more time with her family. It was at this time she began to devote her energy to writing and furthering her study of feng shui. She published her first book in Malaysia in 1995 that quickly became a best seller and the rest is history. Today she is Chairman of Wofs.Com, a feng shui franchise and merchandising company run by her daughter, Jennifer Too. She trains feng shui students and future consultants at her Certified Consulting Institute in Malaysia and is much loved by her readers, associates and students for the way she teaches practical feng shui in a user-friendly way, using ordinary situations and circumstances that interest people and affect their everyday lives. In November 2009, at the International Feng Shui Convention in Singapore, the well-deserved title of GRAND MASTER OF FENG SHUI was conferred upon Lillian Too. Immediately following this accolade, in early January 2010, she received the prestigious Brand Laureate Personality of The Year Award presented by the Deputy Prime Minister of Malaysia! There seems to be no stopping her popularity and recognition these days! Lillian believes everyone should know her secrets and learn how to adapt feng shui to modern life.

This is a first-time purchase and thus have only used it for a few months. The calendar is visually pleasing and compact to sit comfortably on your desk without taking up much real estate. However, it left me a bit wanting for someone who is not familiar with feng shui. It would have been more enjoyable to have further details on certain aspects like how to deal with those days that are considered "unfortunate" or even how to react to having a sign that worked against the Good/Bad days. I guess that's where her other books perhaps are supplemental? I did rather enjoy having the lunar calendar indicated (albeit it is Chinese) as well as when the full and new moon were since I have found myself resonating with the moon. I also liked the gloss of the pages and the harder stock material being used. It gave it a rather nice sheen and feel which would most certainly contribute to the longevity of the calendar. The additional information (i.e. Renovation Rules, Kitchen feng shui, descendants luck, etc.) were helpful to read through as well. Overall, I think it's a purchase worth getting if you have interest in feng shui and would like a visual piece to glance at.

Before you read all this, realize I did give this 5 stars. I do feel it's a great reference for the person familiar with Feng Shui. However, if you are unfamiliar with Feng Shui (especially with Traditional Compass), you may find it contains the good, the bad and the ugly. (Black Hat Feng Shui is a bit less complex and focuses more on cures and enhancements.)

INDIVIDUAL CALENDAR

PAGES==>The days on the calendar that have all black symbols can be very daunting. On the days

which all 5 black symbols or "inauspicious activities" (Business, Marriage, Move House, Travel and Renovation), it says you should "refrain from doing the activities indicated...". So, how do you deal with any of those aspects such as marriage and business? (Hide in a closet and hope nothing happens?) Just glancing, in April 2011, there are 12 days with black symbols (2 days that have all 5 symbols). If April has 30 days, then 40% of the month has something non-positive that you have to be aware of.==>The days/hours breakdown at the bottom of each calendar page is not only very hard to read, it can be extremely confusing and overwhelming. A newbie to this type of Feng Shui is going to be overwhelmed and focus so much on the negative aspects that he/she is going to miss the positive. If you feel you can keep it all in perspective, then it's a great tool for the year.

I buy this book every year. If you are into Feng Shui this is a useful tool!

Great to use throughout the year!

Informative book - just as shown. Very quick ship time too!

Thank you!

QUESTION on how to use ALMANAC and DIARY. I was born on the Year of the Rabbit and bought both the Almanac and the diary for the Year of the Rabbit 2011. When I compare there are days where the 2 are not consistent (eg. Feb 2 - good day on Diary but bad day on almanac. Feb 4 - bad day on diary, good day on Almanac). Which one do I follow ? Is this an error in printing? If so, I want my money back. Can somebody please clarify ? I put just 2 stars because of this inconsistency. Thanks.

I have studied feng shui for years, esp. Lillian too teachings. This book has a typo...it states the southeast 1 star is afflicted illness star, says the same thing for center star.
