## Customer Reviews

Great little book, shows how to play the songs just right. Would buy from again.

Practical and interesting

Short version of the themes. For beginners.

This book is very good for beginner. The mp3s are very helpful. Little book but Great!

This book was just what I wanted. If you like classical music you will like it. There are well known composers such as Mozart, Bach, and Beethoven as well as those not so well known such as Faure and Strauss. I really like how the selections are organized in order of difficulty and get progressively harder as you work through the book. The mp3s are very helpful in developing the correct timing and expression that the piece requires. The pace is not too fast or too slow. The mp3s are so good I listen to it alone. Well this book is a must for beginners as well as more advanced harmonica players!
