I just finished this book (after reading all the others) and I truly enjoyed this series! The storyline is great. There were times I was reading and I was confused because things happened and I wasn't sure how the storyline went from A to B, but the imagery throughout and the overall plot the series made up for it. I felt like I was there in the town, watching Charlie or the other characters have their experiences. I recommend this series for anyone age 8 and up. I'm 35 and I loved it. Well done!

I am an adult who reads as many kids' book as adult books, and really enjoyed this series. My teenage niece did also. The characters are fun - a boy that can travel into pictures, one that controls weather, and one who can call up his ancestors. My favorite is one that blows up lights as he passes underneath them. This is a good series for kids that might not be ready for the deadly endings of Harry Potter. Characters were fun and had more interesting "endowments" than simply being wizards or witches. I enjoyed Harry Potter and don't agree with complaints about this being a bad imitation. About the only thing they share is the good vs. bad theme. Note - they should be read in order.

Love this series. Just as good as Harry Potter.

I enjoyed every book in the series. Perfect ending!! I will not spoil the ending so future readers can read it.

I read this book multiple times in school. My librarian recommended it. I then got it on my phone and have read it many times. Its an amazing book! Get it!

I love this series by Jenny Nimmo, I simply can't stop myself from reading again and again! However, I think this series is like, too short. I really think that there should be another book, for a

'real' ending. It's like Miss Nimmo is rushing to finish this book - there are some places when I thought that should be written more precisely, but she just finish it with like, 3 pages. I would say that the whole series was written fantastically, but you know, reading them is a kind of pleasure and if she would bother to explain and tell us more, it would be PERFECT. Still, I would recommend this book to all Charlie Bone readers!

It's a shame this has to be the last book of the series, but at least it went out right. After reading the first 7 books, Mrs. Nimmo did everything right with the last one. I am currently rereading the series and can't wait to reread this one. It pulled together EVERYTHING from the other books and I can only hope more people will read the series and hopefully Mrs. Nimmo will either reboot the series entirely or at least write one more Charlie Bone book.

This has to be the best book in the world, but I would like it if Jenny made another book. Because I think we should find out what happens with Tancred and Emma. Also to see if the people from Piminy Street come back, and she should make another book on where Dagberts MOM comes back I, and there should be another where Charlie's Uncle finds another descendent of Billy's.
