Customer Reviews

This book features one hundred and fifty new and updated questions derived from Dr Stahl's Online Master Psychopharmacology Program which will help readers prepare for formal tests, including American Board of Psychiatry and Neurology examinations, and achieve CME and MoC credits towards ABPN reaccreditation. The self-assessment questions also offer detailed explanations of correct and incorrect answers.

Stephen M. Stahl is Adjunct Professor of Psychiatry at the University of California, San Diego, and Honorary Visiting Senior Fellow in Psychiatry at the University of Cambridge, UK.

Excellent book but a bit over my head as a PA practicing for 28 years but new to Psych. Stahl is the best though and I highly recommend his books.

This is an awesome book. Stahl has done a phenomenal work that makes critical thinking easy. The information is very current and relevant to any practitioner.

Very upset that the type was so small, that I could not read the questions and answers without using a magnifying glass! C'mon, there is no reason to use 0 point type. Don't waste your hard-earned money on the paperback. Instead order the Kindle version.

Love it! Perfect

Very helpful.
