Tardigrade Quiz & Fact Book: 20 Questions About Tardigrades

Synopsis

What are tardigrades? Where do they live? What temperatures can they withstand? Did they really survive the vacuum of space? You no longer have to do a time consuming web search to find the answers. Get the facts about tardigrades all in one place – the Tardigrade Quiz and Fact Book. What’s nice about this book is that learning is fun because a quiz helps your memory retain information. And the pictures help you remember the answers. Imagine talking to a judge at a science fair with confidence because you know all about tardigrades. Your conversations with friends and family will not just leave them impressed, but they’ll want to hear more. The questions will not be about tardigrades but about you. How did YOU get interested in tardigrades? Did you ever see one? Do you have any right now as pets? As a teacher, don’t be surprised if colleagues ask you to give talks in their classrooms, or if they invite you to get-togethers and parties because you are suddenly so interesting. Can you imagine a parent’s pride when their kid comes home using words like “Fahrenheit,” “spore,” and “ultraviolet radiation?” “I love the idea of building a quiz into a science book like this. The reader is asked a question, if they get it right they get a detailed explanation of why they are right. If they should happen to get it wrong, the author will either throw in a funny joke or offer additional information to help the reader reconsider their answer. I think this is a great way for kids and adults to learn new content.” –J McCullen “I gave this a five star rating because of the information presented. I had no idea Tardigrades were so resilient. Just as suggested by the author, the answers can be very funny yet remain informative. The facts are presented in an entertaining way. Don’t be surprised if your kids laugh out loud. If you read any books this year this one must be among them.” –Dan Holloway

Book Information

Customer Reviews

Michael Shaw has written several books to assist teachers and young scientists. His scientific research consisted of the tardigrade population survey for the state of New Jersey. Mr. Shaw's internet video went viral with over 11 million views, popularizing the tardigrade as "the first animal to survive in space." Recently Mr. Shaw has appeared in a PBS video, and on TV Globo in Brasil on their most watched Sunday night program, Fantastico.

There are just not that many books about tardigrades. I love that I was even able to find one. I have it available in the classroom for free reading. The kids love quizzing each other and telling their parents about tardigrades. I recommend this book to everyone. Tardigrades rock.

I love the idea of building a quiz into a science book like this. The reader is asked a question, if they get it right they get a detailed explanation of why they are right. If they should happen to get it wrong, the author will either throw in a funny joke or offer additional information to help the reader reconsider their answer. I think this is a great way for kids and adults to learn new content

I gave this a five star rating because of the information presented. I had no idea Tardigrades were so resilient. Just as suggested by the author, the answers can be very funny yet remain informative. The facts are presented in an entertaining way. Don't be surprised if your kids laugh out loud. If you read any books this year this one must be among them. Dan

What a nice little book on Tardigrades, I just bought it and my Grand daughter (7) is already going through it and asking questions. Definitely a little book for Teachers and Kids. Thank you Mr Shaw Reynald Carra

A very interesting read. I had never heard of a Tardigrade. Time to break out my microscope and get busy. Highly recommend this book.

Wonderful resource for kids, teachers, AND AND AND interested adults. Totally worth a purchase! I am going to be buying a copy as a gift.

This book was an absolute delight! It provided my son and I with a solid hour of quality time. We laughed. We learned. And we marvelled. Thank you Mr. Shaw !
