Emergency Response Management For Athletic Trainers (Lww's Athletic Training Education Series)

Synopsis

Written specifically for athletic trainers and students, this comprehensive text will teach readers how to quickly and effectively assess and manage the broad range of medical emergencies that athletes may experience, including traumatic injuries, respiratory and circulatory arrest, and sudden illness. It not only explains core first aid skills, but it also highlights the specific athletic training emergency trauma skills outlined in the educational competencies set by the National Athletic Trainer's Association Board of Certification. Within each chapter, readers will find a mix of theory and practical, hands-on guidance to help them perform essential emergency response techniques. Moreover, each chapter has been designed to account for different learning styles, incorporating a variety of didactic, visual, and kinesthetic learning tools to enable everyone to master the core skills of emergency response management.

Customer Reviews

Provides updated, relevant and important professional information. Absolutely essential for all ATC and personal trainers--you won't be disappointed at all.

It gave you step by steps and it gives you the definition to the words that you don't quite understand.

just want I needed

This is a great book for refreshing and reviewing my athletic training skills. It will be a great textbook for my students to use as a reference.

I ordered this book for my daughter to use for college. The book is in good shape for being used. I was very pleased with the speedy delivery and I will definitely purchase books from here again.

I needed to read this book to earn CEU's as an Athletic Trainer. The book is very thorough about reviewing emergency protocols and techniques. I needed to brush up on some things and this book did just that.

The book was in perfect conditions and arrived as expected.

perfect cond.
