Customer Reviews

I love books about vampires the First Ones held my attention till the very end.....can't wait for the movie.

I recommend this book to any fans of super natural. A new twist on the vampire genre. Cool concept. Enjoyed it!

At first I was a little skeptical, I've never been a big vampire fan at the recommendation of a friend, and to get myself away from the romance and how to books I decided to read The First Ones, and I must say I am glad I did. After the 1st chapter I was drawn in and couldn't put it down. I am now a vampire fan and look forward to reading more books by this author...Thank you

If you're a vampire fan this book is a must read. Once I picked it up I could not put it down. If you're a Twilight fan you will love this. I have read it over 3x already. It has an unexpected twist that you do not see coming. I hope this author writes a sequel..... I loved it!

This book has a lot of potential, but the story seems rushed and could use an editor.

Great Book! Talented writer! I highly recommend this book!
