Customer Reviews

"One of the most interesting of the handful of books that have been coming out for the bicentennial of the Second War for Independence...of value...a very good book for anyone interested in this most neglected war or in the experience of the American soldier"--The NYMAS Review; "very useful"--Michigan Historical Review; "greater familiarity with the Americans who fought the War of 1812 is essential for military historians and professional soldiers to fully comprehend the development of the U.S. Army. An ideal place to start that journey is John C. Fredriksen's collection of eyewitness accounts, *The War of 1812 in Person*. No scholar has made a closer study of the available sources on the American military in the War of 1812...Fredriksen has performed a noteworthy service by resurrecting a lost generation of American soldiers...students and scholars should be grateful for such a firm foundation from which to launch new studies for the War of 1812's military facets"--Army History; "a wonderful addition to the scholarship of the War of 1812. This book provides students of the conflict with first-hand accounts from the participants themselves. It is essential reading for those who want to know what the war was like from those who fought it"--Northwest Ohio History.

John C. Fredriksen, is the author of more than 20 books about military history. He lives in Smithfield, Rhode Island.

It's not often you can get inside a soldier's head and find out what they were thinking while under fire. Here we have 15 first hand accounts giving a most personal insight into what the combatants thought was significant, not some dried up old historian in the basement of a long forgotten museum. This compilation gives the reader a fresh insight into an oft misunderstood, and poorly reported war that is in fact very significant in the early development of the United States of America as a nation. If you are a student of American history - or military - this is a 'must have' for your collection.

This book gives access to some great primary source material. I was particularly interested in Rufus McIntire, a local hero whose letters from the front were included.
